

COVID-19 Guidelines:

1. 6 students per class
2. Own workstation per student
3. Workstations are sanitized between classes
4. Homework practice is done at home
5. Masks optional *

*** If there is a known positive case of COVID in a child's household, we require the child wear a mask in class and we will require a test by day five (no earlier than day three) for the child to remain in class. Children with known cases in the household will be required to wear a mask for ten days from date of the most recent household member's symptom onset. Several members of the community might wear masks at various times, so children will not feel singled out in these instances.**
